AMUNDI FUNDS EQUITY EMERGING FOCUS - OFE
A Sub-Fund of the SICAV AMUNDI FUNDS
ISIN code: (A) LU1600318916

This UCITS has appointed Amundi Luxembourg SA, an entity part of Amundi group, as its Management Company

Objectives and Investment Policy

The objective of the Sub-Fund is to seek a long-term capital growth by investing at least two thirds of its assets in shares and financial instruments replicating or based on shares ("equity-linked instruments") of companies of developing countries. Such companies are selected following a process that identifies those taking benefit from emerging countries growing demand in term of household consumption, domestic investments and infrastructure development.

The Sub-Fund may invest in financial derivative instruments for hedging purpose and for the purpose of efficient portfolio management.

The MSCI Emerging Markets index represents the reference indicator of the Sub-Fund. The Sub-Fund does not aim to replicate the reference indicator and may therefore significantly deviate from it.

The accumulation share automatically retains, and re-invests, all attributable income within the Sub-Fund; thereby accumulating value in the price of the accumulation shares.

The minimum recommended holding term is 5 years.

Shares may be sold or redeemed (and/or converted) on any dealing day (except otherwise stated in the prospectus) at the respective dealing price (net asset value) in accordance with the articles of incorporation. Further details are provided in the prospectus of the UCITS.

Risk and Reward Profile

Typically lower reward

Typically higher reward

The risk level if this Sub-Fund mainly reflects the market risk arising from investments in emerging markets equities.

Historical data may not be a reliable indication for the future.

Risk category shown is not guaranteed and may shift over time.

The lowest category does not mean ‘risk free’.

Your initial investment does not benefit from any guarantee or protection.

Important risks materially relevant to the Sub-Fund which are not adequately captured by the indicator:

- Liquidity risk: in case of low trading volume on financial markets, any buy or sell trade on these markets may lead to important market variations/ﬂuctuations that may impact your portfolio valuation.
- Counterparty risk: represents the risk of default of a market participant to fulﬁl its contractual obligations vis-à-vis your portfolio.

The occurrence of any of these risks may have an impact on the net asset value of your portfolio.
Charges
The charges you pay are used to pay the costs of running the Sub-Fund, including the costs of marketing and distributing it. These charges reduce the potential growth of your investment.
